SAXMUNDHAM URBAN DISTRICT COUNCIL

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH  
FOR THE YEAR 1956

*Staff E*

To the Chairman and Members of the Saxmundham Urban  
District Council:

Gentlemen,

I have the honour to present to you a Report on  
the Health and Sanitary State of the District for the  
Year 1956.

I am, gentlemen,  
Your obedient Servant,

D. W. RYDER RICHARDSON.

## EXTRACTS FROM VITAL STATISTICS:

<u>LIVE BIRTHS.</u>	TOTAL	Male	Female
Legitimate	26	13	13
Illegitimate	3	1	2
<u>Birth Rate 20.0</u>			
<u>DEATHS</u>	16	6	10
<u>Death Rate 11.0</u>			

  

Deaths from Puerperal Causes ... ..	None
Deaths of Infants under 1 year old.. ...	None
Deaths of Infants under 4 weeks old. ...	None
Deaths from Cancer.. ...	3
Deaths from Measles, Whooping Cough, Diarrhoea, under 2 years old. ... ..	None

## INFECTIOUS DISEASES

There was no special incidence of any Infectious Disease during the year. Two cases of pneumonia were notified; one (a female 77 years old) died. Three cases of pulmonary tuberculosis were notified, two males aged 49 and 47 and one female aged 45. There have been no deaths from this disease during the year.

## WATER SUPPLY

Ample supplies of water of very good quality continued to be supplied during the year.

## SEWERAGE

Doubts have arisen as to the present efficiency of the Town Sewage Works and as to their ability to treat the increased volume of sewage which will flow when Kolsalo sewage is added.

The advice of the County Water Engineer was sought on this matter and his recommendations are being followed. It is hoped that this will result in a satisfactory effluent being once more obtained. The efficiency of the system here, as elsewhere, is gravely affected by the grossly extravagant use of detergents by housewives in general.
